Sudarshan Dhokale

Senior Software Engineer

Full-Stack Engineering | Architecture & Technical Leadership

Hamburg, Germany | +49 1512 9417854 | sudarshandhokale09@gmail.com

LinkedIn | GitHub | XING | Portfolio: sudarshandhokale.github.io

PROFESSIONAL SUMMARY

Senior Software Engineer with 13+ years building full-stack products and distributed backend systems. Deep Ruby on Rails expertise, strong Node.js/TypeScript and Angular skills, and hands-on Java/Spring Boot experience. Leads architecture, implementation and production delivery, with previous technical leadership across 20–25 engineers.

Domain experience: School ERP and surveys; logistics/GPS tracking; cloud management; wellness/fitness subscriptions and payments; professional/job networks; customer data and marketing attribution.

PROFESSIONAL EXPERIENCE

New Work SE (XING)

Aug 2022 - Present

Senior Software Engineer | Hamburg, Germany

Professional network and jobs platform with ~5M monthly active users (MAU) and ~400K daily active users (DAU).

- Led event-driven tracking and conversion delivery to **15+** advertising partners, including Meta, LinkedIn and Google, for timely campaign measurement and attribution.
- Led architecture and hands-on delivery of Kafka-based customer data sync to Braze, replacing periodic warehouse sync to reduce latency and address stale audience data affecting campaign targeting.
- Designed pipelines that unify cross-product user data in a Customer Data Platform (CDP) and Snowflake for segmentation, analytics and lifecycle marketing.
- Co-developed an internal analytics tool to examine Braze campaign dependencies, attribute usage and audience impact.
- Led migration of the team's services from on-premise infrastructure to AWS.
- Drive architecture, technical standards and delivery planning with engineering and business stakeholders, aligning priorities with team OKRs.

YogaEasy

Sep 2019 - Aug 2022

Full-Stack Developer | Hamburg, Germany

- Built Rails services and Angular interfaces for a wellness and fitness video platform, collaborating with product, design, marketing and support.
- Led development of payment, subscription and invoicing workflows using the PAYONE payment gateway, supporting paid memberships and recurring billing.
- Extended Rails Admin content management capabilities to simplify content operations and publishing workflows.
- Built CRM and retention features supporting customer lifecycle communications, engagement and conversion.

PROFESSIONAL EXPERIENCE

Kumolus

Sep 2017 - Aug 2019

Senior / Lead Software Engineer | Pune, India

- Promoted to Lead within six months; led **20-25 engineers** across backend, frontend, QA and DevOps through reporting team leads while remaining hands-on.
- Built AWS/Azure cloud-management components for provisioning, governance and operations.
- Led Angular UI development, enabling B2B customers to design AWS/Azure infrastructure by drag and drop.
- Partnered with the CTO on architecture and roadmap; mentored engineers and improved deployments and monitoring.

Vertis Microsystems LLP

Feb 2015 - Sep 2017

Software Engineer | Pune, India

- Built Rails logistics and compliance applications, including Technical United GPS cargo tracking and the SHEQSCAN safety and quality platform.
- Provided on-site support in Saudi Arabia, resolving customer issues and supporting product adoption.

Axenic Technologies

Sep 2013 - Feb 2015

Software Engineer | Pune, India

- Built full-stack Rails applications with SQL databases and frontend interfaces, including the Aster school management system.
- Worked across requirements, implementation, deployment and production support for administrative and student lifecycle features.

SELECTED PROJECTS

- **Mobile apps:** Independently built React Native/Expo apps from scratch through publication on the Apple App Store and Google Play.
- **RAG assistant:** Built and deployed an OpenAI-powered assistant using RAG and vector search to answer users' questions grounded in source material.
- **Wearo personal prototype:** Coordinated multiple AI models for wardrobe image tagging, weather-aware outfit recommendations, and flat-lay and personalized outfit images.

TECHNICAL SKILLS

Languages: Ruby, TypeScript/JavaScript, Java, SQL, Shell; Go (limited hands-on)

Backend: Rails, Node.js, Java/Spring Boot (hands-on), Sidekiq, REST APIs, microservices, system design, distributed/event-driven systems, WebSockets/Action Cable

Frontend and mobile: Angular, React, React Native, Expo, HTML/CSS

Data and messaging: PostgreSQL, MySQL, MongoDB, Oracle, Redis, Kafka, RabbitMQ/AMQP

Cloud and delivery: AWS, Azure cloud management, Docker, Kubernetes (app deployments), Heroku, Jenkins, GitHub Actions, CI/CD

Search and observability: Elasticsearch, Solr, Kibana, production monitoring

AI and data platforms: OpenAI APIs, RAG, vector search, multi-model workflows, CDP, Braze, Snowflake

EDUCATION

Bachelor of Engineering in Information Technology | 2013

Jayawantrao Sawant College of Engineering, Savitribai Phule Pune University, Pune, India
